Do you have what it takes to provide guidance and mentorship in this fast moving and high tech environment?

Position Title: CNC Production Machinist/Programmer (Day or Afternoon Shift)

Location: Dorchester, Ontario

General description

The nature of the work is machining production parts and programming for production in the defense industry. This position could be day or afternoon shift (TBD based on candidate pool).

Required Skills and Qualifications:

- 5 years direct experience as a Machinist
- High school diploma or equivalent, or one year community college
- Operate, setup and program CNC machining centers at an advanced level using Mastercam
- Familiarity with ISO9001 and AS9100 quality standards
- Accurate and highly analytical
- Strong work ethic and positive team attitude

Essential Duties:

The duties associated with this position include, but are not limited to:

- Have a good knowledge of all Standard Operational Procedures for their areas and be able to ensure that all standards of quality are controlled and carried out
- Proficient in running manual Milling, Lathe, drilling and saw cutting equipment
- Trouble shooting and problem solving

- Understanding of quality procedures
- Communicate and/or assist QA Technicians with the process and final inspections.
- Understanding of fundamental cutting tool selection
- Proficient in blue print reading (geometric tolerances)
- Knowledge of required measuring instruments and gauges
- Comply with and demonstrate the company Health & Safety rules and regulations in accordance with the Act. Ensure standards for safe working conditions are observed in all areas covered by this designation
- Assist in the design and implementation of standards for safe working conditions
- General Understanding of Computer Solid modeling (Ideally with Solid Works)
- General Understanding of programming CNC 3 axis milling machines (Master cam)
- Prepare production and other reports as required
- Oversee training of workers and complete verification documents
- Operate CNC mills/lathes for production
- Other duties as required

Armatec offers a competitive compensation package with a comprehensive, flexible group benefits program.

Qualified candidates may apply to: hr@armateconline.com. Please **include position title in e-mail subject line**. We thank all who apply, but only applicants selected for an interview will be contacted.

Equal Employment Opportunity

Armatec is committed to Employment Equity, welcomes diversity in the workplace, and encourages applications from all qualified individuals.
