- Excellent oral and written skills in order to write contracts but also to communicate with clients and internal employees
- Understanding of Government rules and regulations
- Full knowledge of the terminology related to Defense Industry contracts
- Valid drivers license
- Canadian Government security clearance or ability to obtain security clearance
- Valid passport

Essential Duties:

The duties associated with this position include, but are not limited to:

Procurement Proposal Planning

- Determination of needs through forecasting requirements, procurement and acquisition knowledge, , funding appropriations and market research
- Analysis of requirements through collectively working with the Technology Team, the Operations Team, the Administration Team and the Business Team to ensure the creation of integrated solutions for a successful growth of Armatec's business volume and increased ROI
- Evaluate the extent of competition through conducting research on past government contracts for a point of reference on contractual obligations and standards.
- Source selection planning
- Solicitation of Terms and Conditions working in tandem with key internal and external stakeholders.
- Oversees and manages the bid evaluation, analysis and selection process

Contract Formation

- Responsible for managing the tender process of RFQs and RFPs according to established company policies and procedures to ensure optimal results
- Assist in the drafting, reviewing and negotiating a wide range of service/good contracts and revenue generating contracts
- Drafting, analyzing and negotiating contracts
- Complete and review the contract line by line to ensure that there are no mistakes on the originating documents.
- Challenge proposed contract terms and conditions and/or scope of work to mitigate or remove risks to the company with customers, suppliers, sub-contractors, internal departments and/or other external third party organizations.
- Propose amended contract language and negotiate proposed changes

Contract Administration

- Ensure all related parties are well-trained on the process and procedures required in the Contract Lifecycle and have a clear view of what their role is
- Draft, analyze, negotiate and implement amendments to contracts in order to improve services and or change clauses that will meet the need of customer and the company.
- Maintain close communication with customers to ensure contractual obligations are met and that expectations are exceeded.
- Ensure maintenance of accurate, thorough contract records and help to facilitate efficient interdepartmental communications related to assigned areas
- Evaluation of contractor's performance and creation of necessary action plans to close any gaps
- Maintain accurate and up to date data base for all contracts and expiry dates.
- Ensures purchase requisitions are created and maintained for executed agreements.
- Administer contracts and effect changes in contractual agreements according to organizational needs, changing markets and legislative codes and standards.
- Manages the relationship with customers keeping track of performance, negotiated discounts, and performance assessments to ensure compliance
- Perform cost analyses to identify areas of opportunity to reduce cost and maximize revenues.
