Do you have what it takes to provide guidance and mentorship in this fast moving and high tech environment?

Position Title: Industrial Painter

Location: Dorchester, Ontario

General description:

The Industrial Painter operates machines or uses brushes and spray equipment to apply paint, enamel, lacquers or other protective coatings to surfaces of various products. Responsibilities will include: identifying potential safety hazards, selecting or mixing the appropriate paint, and reading and interpreting blueprints. In the course of his/her duties, the Industrial Painter will inspect surfaces for contamination prior to coating and identify and employ methods that will reduce exposure to hazardous chemicals from the paint.

Prerequisite Skills and Qualifications:

- 6+ years of experience
- Excellent Communication skills
- Leadership and team building skills
- Decision Making & Critical Thinking
- Ability to understand production schedules
- Organized and tidy workmanship
- Legible handwriting and good writing skills

Essential Duties:

- Oversee and co-ordinate activities of workers in the Paint Shop
- Establish methods to meet work schedules and co-ordinate work activities with the other areas
- Operate equipment to spray or coat parts
- Operate equipment to prepare parts for application of protective coatings
- Mix paints independently.
- Trouble shooting and problem solving to ensure a quality product
- Understanding and adherence of quality procedures

- Understand the environmental effects on painting and be able to make adjustment to a workload to ensure quality work is completed
- Communicate and/or assist QA Technicians with the process and final inspections.
- Requisition materials and supplies
- Have a good knowledge of all Standard Operational Procedures for their areas and be able to ensure that all standards of quality are controlled and carried out.
- Comply with and demonstrate the company Health & Safety rules and regulations in accordance with the Act. Ensure standards for safe working conditions are observed in all areas covered by this designation.
- Resolve work problems and recommend work measures to improve productivity
- Assist in the design and implementation of standards for safe working conditions
- Scheduling of workload
- Prepare production and other reports as required
- Oversee training of workers and complete verification documents
- Recommend personal actions such as hiring and promotions or disciplinary action
- Other duties as required.

Armatec offers a competitive compensation package with a comprehensive, flexible group benefits program.

Qualified candidates may apply to: hr@armateconline.com. Please include position title in e-mail subject line. We thank all who apply, but only applicants selected for an interview will be contacted.

Equal Employment Opportunity

Armatec is committed to Employment Equity, welcomes diversity in the workplace, and encourages applications from all qualified individuals.
