Vehicle Modification Technician

Looking for a dynamic Vehicle Modification Technician to join our team in Dorchester, Ontario!

An innovative company with an entrepreneurial spirit, Armatec was established in 1997 and has established itself as a significant player in the defense survivability market. Our products are instrumental in saving soldiers' lives around the world and we continually strive for innovation and product excellence.

Armatec offers a competitive compensation package with a comprehensive group benefits program. Cafe and gym onsite for your convenience at low cost to employees.

General Description:

The position requires an independent individual who can be relied upon to coordinate with engineering designers to implement the disassembly, modification and re-assembly of military vehicles and systems. Maintaining an organized, safe and clean vehicle modification area as well as tools and equipment is essential. The position suits a creative and experienced "hands on" individual, where a challenge is the motivation to get the job done. When vehicle modification tasks allow the individual may be required to support other prototyping and/or production activities

Essential Duties:

The duties associated with this position include, but are not limited to:

- The disassembly of military vehicles in an orderly and safe manner following the customer's technical manuals and engineering direction.
- The recording of the disassembly process and safe, documented stowage of parts/systems removed.
- The physical modification of vehicles and vehicle systems to include the documentation of any changes made.
- The complete assembly of vehicle systems and vehicle to include the documentation of any the assembly process.
- Consulting with engineering to obtain all information needed to get the task finished on time and advise management of potential delays and present possible solutions to prevent delays ahead of time
- Working on new developments, prototypes and pre-production runs
- Complying with the company Health & Safety rules and regulations in accordance with the Act.
- Assisting the Engineering and Production Managers with technical and manufacturing tasks when not engaged in vehicle modification activities.
- Other duties as required

Prerequisite Skills and Qualifications:

- Understanding of Armatec's products
- Relevant defense industry background experience would be an asset
- Understanding of quality procedures
- Superior communication skills
- Superior trouble shooting and problem-solving skills
- Experience in the modification of host vehicles and installation of composite armour materials
- Ability to trim and fit prototype parts
- Excellent workmanship skills
- Excellent hands-on skills with grinders, hand drills and other hand tools
- Ability to follow work instructions and procedures
- Ability to develop and organize work areas needed for the assigned tasks
- Organized and tidy workmanship
- Ability to represent the company at remote sites and often with limited supervision
- Ability to train and lead a team in a fast-paced environment
- General machining skills and sheet metal experience would be an asset
- General steel welding would be an asset
- Ability to obtain Security Clearance

Armatec is an Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, veteran status or any other prohibited ground of discrimination.

We are committed to providing an inclusive and barrier-free work environment, starting with the hiring process. If you need to be accommodated during any phase of the evaluation process, please advise us and we will do our best to support you. All information received in relation to accommodation will be kept confidential.

We appreciate your interest in Armatec, however only those chosen to move forward in the recruiting process will be contacted regarding this position.
